	Occurrence Lists	Interpretation	Recommendations of information to be described the occurrence (ECCAIRS Attribute Number 1092)
1. AIF	ROPERATIONS		
1.1	Unintentional loss of control.	This includes loss of control inflight (LOC-I) and loss of control on the ground (LOC-G)	
1.2	Landing outside of intended landing area.		
1.3	Inability or failure to achieve required aircraft performance expected in normal conditions during take-off, climb or landing.		

Occurrence Lists		Interpretation	Recommendations of information to be described the occurrence (ECCAIRS Attribute Number 1092)
1.4	Runway incursion.	Runway incursion means any occurrence at an aerodrome involving the incorrect presence of an aircraft, vehicle or person on the protected area of a surface designated for the landing and takeoff of aircraft includes entering a runway;  • without an ATC clearance or  • stop light intrusion (Red) even if cleared.  Note: Incorrect presence means:  (a) anything within the confines of the runway strip, irrespective of having an appropriate clearance, which hinders the operation of an arriving or departing aircraft; or	
		(b) an aircraft, vehicle or person entering the confines of the flight strip without a clearance to do so, regardless of other aircraft operations.	
1.5	Runway excursion.	Any aircraft that veers off the side of the runway or overruns the runway threshold.  "Overrun" means an aircraft is unable to stop before the end of the runway.	

	Occurrence Lists	Interpretation	Recommendations of information to be described the occurrence (ECCAIRS Attribute Number 1092)
1.6	Final Approach and Take-off Area	FATO is a defined area over which the final phase of the	
	(FATO incursion).	aircraft/helicopter approach manoeuvre to hover or land is completed and from which the take-off manoeuvre is	
		commenced.	
		Note: using for helicopter operation.	
1.7	Any flight which has been performed		
	with an aircraft which was not		
	airworthy, or for which flight		
	preparation was not completed, which		
	has or could have endangered the		
	aircraft, its occupants or any other		
	person.		

	Occurrence Lists	Interpretation	Recommendations of information to be described the occurrence (ECCAIRS Attribute Number 1092)
1.8	Unintended flight into IMC (Instrument meteorological Conditions) conditions of aircraft not IFR (Instrument flight rules) certified, or a pilot not qualified for IFR, which has or could have endangered the aircraft, its occupants or any other person.		
1.9	Operation of aircraft that deviate from aircraft equipage or operations approval required by applicable regulations.		
1.10	Unintentional release of cargo or other externally carried equipment.	This refers to the release of cargo such as, helicopters with underslung loads, agricultural aircraft releasing its 'cargo' of pesticides, for example. Externally carried equipment such as winches, spotlights, cameras etc.	

	Occurrence Lists	Interpretation	Recommendations of information to be described the occurrence (ECCAIRS Attribute Number 1092)
2. TE	CHNICAL OCCURRENCES		
2.1	Abnormal severe vibration (for example: aileron or elevation 'flutter', or of propeller).		
2.2	Any flight control not function correctly or disconnected.		
2.3	A failure or substantial deterioration of the aircraft structure.	The events that are not classified as an accident.	
2.4	A loss of any part of the aircraft structure or installation in flight.		
2.5	A failure of an engine, rotor, propeller, fuel system or other essential system.		
2.6	Leakage of any fluid which resulted in a fire hazard or possible hazardous contamination of aircraft structure, systems or equipment, or risk to occupants.		

3. INT	Occurrence Lists  ERACTION WITH AIR NAVIGATION SERVICE	Interpretation  AND AIR TRAFFIC MANAGEMENT	Recommendations of information to be described the occurrence (ECCAIRS Attribute Number 1092)
3.1	Interaction with air navigation services (for example: incorrect service provided, conflicting communications or deviation from clearance) which has or could have endangered the aircraft, its occupants or any other person.		
3.2	Airspace infringement including unauthorized penetration of airspace.	Unauthorized infringement of any form of regulated airspace.	
4. EN	ERGENCIES AND OTHER CRITICAL SITUATION	DNS	
4.1	Any occurrence leading to an emergency call.		
4.2	Fire, explosion, smoke, toxic gases or toxic fumes in the aircraft.	This includes a fire (even if subsequently extinguished), smoke, fumes or an explosion on or in any part of the aircraft;	
4.3	Incapacitation of the pilot leading to inability to perform any duty.	Incapacitation includes fatigue resulting from flying and associated duties, if confirmed by a qualified medical practitioner.	

	Occurrence Lists	Interpretation	Recommendations of information to be described the occurrence (ECCAIRS Attribute Number 1092)
5. EX	TERNAL ENVIRONMENT AND METEOROLOG	SY .	
5.1	A collision on the ground or in the air, with another aircraft, terrain or obstacle including vehicle.		
5.2	A near collision, on the ground or in the air, with another aircraft, terrain or obstacle including vehicle requiring an emergency avoidance maneuver to avoid a collision.	Near collision means requiring an avoidance manoeuvre to avoid a collision or an unsafe situation or when an avoidance action would have been appropriate.	
5.3	Wildlife strike including bird strike.	This includes all wildlife and bird strikes with or without damage. Suspected bird strikes or encounters with flocks should also be reported.	
5.4	Interference with the aircraft by firearms, fireworks, flying kites, laser illumination, high powered lights lasers, Remotely Piloted Aircraft Systems, model aircraft or by similar means.		

person.

	Occurrence Lists	Interpretation	Recommendations of information to be described the occurrence (ECCAIRS Attribute Number 1092)
5.5	A lightning strike resulting in damage to		
	or loss of functions of the aircraft.		
5.6	Severe turbulence encounter which		
	resulted in injury to aircraft occupants		
	or in the need for a post-flight		
	turbulence damage check of the		
	aircraft.		
5.7	Icing including carburetor icing which		
	has or could have endangered the		
	aircraft, its occupants or any other
